Final Report

American Psychological Association Task Force on the Mental Health Response to the Oklahoma City Bombing

Table of Contents

I. INTRODUCTION	1
Psychological Impact of Terrorism	1
The Oklahoma City Bombing	2
The APA Disaster Response Network	2
Defining the Task Force	3
1. Mission statement	3
2. Customers	3
3. The Product	4
Product Development	4
1. Task force members	5
2. Work groups	5
The American Psychological Association	7
The American Red Cross	7
II. SERVICES TO ADULT SURVIVORS AND VICTIMS' FAMILIES	9
The Compassion Center	9
Support Services	10
Family Services	10
Death Notification Teams	12
Stress Management and Staff Mental Health	12
Recommendations	13
1. Adequate numbers of mental health professionals, reasonable shifts	13
2. Increased numbers of mental health professionals well-trained in disaster mental health	13
3. Uses of mass casualty-experienced supervisory personnel/use of shadow team to train local supervisory personnel	13
4. Choice of compassion center site	14
5. Need for security at compassion center	14
6. Identification of mental health professionals	14
7. Effective delivery of critical incident stress management/staff mental health to all responders	14
8. Understanding the chain of command, the role of the mental health professional, and the operational changes that take place daily	15

B-74

9. Collaboration between community mental health and the disaster response.	15
10. Training and selection of mental health personnel for death notification teams.	15
11. Selection of their personnel for death notification teams.	16
12. Long-term care.	16
13. Links between research and services.	16
III. SERVICES TO CHILDREN	18
Compassion Center	18
YMCA	19
Oklahoma City Schools	19
Helping the Children Heal Hotline	21
Recommendations.	21
1. Presence of child specialists at compassion centers and availability to death notification teams.	21
2. Involvement of local child specialists in planning and response.	22
3. Preparation of school disaster mental health plans.	22
4. Crisis counseling grants.	22
5. Long-term care	23
6. Links between research and services.	23
IV. SERVICES TO FIRST RESPONSE TEAMS AND RESCUE AND RECOVERY WORKERS	24
Recommendations.	26
1. Mandatory CISM/mental health services for first response teams.	26
2. Inclusion of mental health and CISM in incident command protocols.	26
3. Need for more CISM-trained mental health professionals.	27
4. Disaster mental health services/CISM for spouses and families of first response and rescue and recovery teams.	27
5. Need for better information regarding federal funds to assist with disaster mental health and CISM.	27
6. Interstate mutual aid agreements for CISM.	28
7. Debriefing for first response and rescue and recovery team supervisory and administrative personnel.	28
8. Assignment of personnel to centers where death notification occurs.	28
9. State worker's compensation laws.	28
10. Efficacy and adequacy of CISM.	28
V. THE MENTAL HEALTH AND CLERGY RESPONSE	29
Mental Health Professionals	29
The Clergy.	30

Recommendations.	31
1. Need for more disaster mental health training for psychologists.	31
2. Importance of including local mental health professionals in leadership positions/importance of involvement of DRN chair in planning and preparation.	31
3. Importance of off-site mental health staffing.	31
4. Importance of orientation to the job and daily pre-shift briefings.	32
5. Use of VAMC mental health professionals.	32
6. Development of clergy organization, training, and disaster plan.	32
7. Development of mental health and clergy staffing form.	32

VI. TRANSITION FROM IMMEDIATE TO LONG-TERM DISASTER

MENTAL HEALTH SERVICES	33
Background Information	33
The Oklahoma City Bombing	34
ODMHSAS: Project Heartland	36
Crisis counseling.	38
Outreach and public information.	38
Support groups.	39
Training and consultation.	39
Innovative services.	42
Other Programs Providing Long-Term Mental Health Services	42
ARC/Sunbridge disaster counseling program.	42
Other agencies.	43
Recommendations.	43
1. Recognition of the magnitude and severity of psychological difficulties following such incidents.	43
2. Importance of training.	44
3. Importance of supervision.	44
4. Preparation by state departments of mental health.	45
5. State and federal funding for long-term mental health care.	45
6. Program evaluation.	46
7. Importance of consultation.	46
8. Importance of staff support.	46

VII. ROLE OF GOVERNMENT AGENCIES 48

Recommendations.	49
1. Need for clearer federal response plan regarding mental health services in mass casualty and terrorist incidents.	49
2. Need for state disaster mental health plans.	49
3. Development of collaborative state disaster mental health planning.	49
4. Coordination of elements of the state disaster plan.	49
5. Knowledge of plans and resources.	50
6. Training for state DRN chairs.	50

VIII. SERVICES TO MINORITIES AND UNDERSERVED POPULATIONS.	51
Recommendations.	52
1. Appropriate service to cultural/ethnic and special needs of service population.	52
2. Recruitment of mental health professionals of color and multilingual mental health professionals.	52
3. Use of other cultural human resources.	52
IX. MENTAL HEALTH RESEARCH FOLLOWING THE BOMBING	53
Recommendations.	54
1. Designation of a coordinating university for research.	54
2. Use of common research protocols.	54
3. Study of long-term consequences.	54
4. Comparison of treatment efficacy.	54
5. Funding of research as part of FEMA/CMHS crisis intervention grants.	54
X. MENTAL HEALTH AND THE MEDIA	55
Recommendations.	56
1. Selection of mental health spokespersons.	56
2. Need for security at compassion center and other sites.	56
3. Assistance for families in dealing with media.	56
4. Media personnel as secondary victims.	56
XI. CONCLUSION.	58
1. Mass Casualty Incidents are Different From Other Disasters	58
2. Immediate Response	58
3. Long-Term Response	59
4. Research.	59
